WORK EXPERIENCE

Word Press, PHP and Social Media Marketing.(Intern)
Embtel Solutions

01/2021 - 04/2021

Embtel Inc. *It is a* ***USA based*** *company. This company works on many technologies. This company is also operating in many other countries.*

- *Achievements/Tasks*
- During this internship I got to work on various projects.
- During this period I got to learn how the industry works and how I could fit into it.
- During this time I have learned how to work with a team as well as individually.
- Experienced in how to work on a live project and how to manage it.
- And also got the certificate successfully.

SKILLS

PHP (Working with the framework is a different kind of fun. Frameworks like Laravel, WordPress.)

Python to some extent, as well as its framework Django

I can bring a good solution with Android too.

I can also do graphics design to some extent.

My latest interest is cloud computing

PERSONAL PROJECTS

Object detection and recognition(YOLOv4) [UG] (01/2021)
- **Object detection and recognition (YOLOv4) :-**
- This project is my favorite among many projects.
- With the help of this project, the object can be detected very well.
- ***YOLO technology*** has been used in this project.
- ***"YOU ONLY LOOK ONCE"*** The model of my project is trained with this algorithm.

Job Portal [PG] (06/2022)
- This system helps the user to find the job by understanding the job problem.
- ASP.NET and SQL Server are used as server to build this system.
